

## July 19, 2016 State Stormwater Call Notes

Present on call: CO/MT/UT/WY/EPA

Updates by State...

**EPA:** Asked about WUS remanding. Rule remand is at PN now (30 day PN). Will keep group updated as this issue proceeds.

### **CO:**

MSGP admin extended and not actively renewing

CDOT MS4s recently renewed

Denver MS4 working on – going through all records (460 records) and what was approved/nonapproved as part of the program. No timeframe on permit issuance.

Fee bill approved to keep to with inflation – MS4s 30% increase, MSGP 60-70% increase so may be able to hire more staff with new revenue stream starting next year.

CGP at internal review now. Not going to wait for EPA to settle their CGP co-permittee challenge from NAHB. **Follow-up: Amy to share the latest and greatest on this issue.**

Compliance Assistance: Construction inspections on-going, industrial inspections will start with the new fee increase, but will not due MS4 inspections. Instead will continue to complaint follow-up, etc. for MS4s. Colorado Springs case on-going with EPA/DOJ.

**MT:** Will be issuing the final CGP shortly and finishing up last minute website updates.

MS4 and Waterkeeper: Administrative record was completed in May. Up next per the scheduling order is that the plaintiff shall file its motion for summary judgement and brief in support by August 4<sup>th</sup>.

We will begin to work on the MSGP renewal shortly. The current MSGP expires on January 31, 2018.

### **UT:**

Jeanne Riley is new Stormwater Program Manager replacing Jeff Studenka. **Welcome Jeanne!** There are also 2 vacancies in Stormwater Program that she is working on filling.

MS4 - Working with local HBs regarding retention standard concerns.

Certain MSGP Sectors will be renewed by end of year.

Working on SLC airport permit -reached out to CO (Michelle DeLaria). Deciding whether to individual permit. **Thanks Michelle!**

**WY:**

Mineral mining permit through PN, working on finalizing and issuing.  
MSGP going to PN sometime this month.

Writing CGP now, land access language being added to permit. For existing permittees, land access may be an issue. For new permits, if access isn't allowed for DEQ, then no permit will be issued.
